

CMA (Certified Management Accountant)

Over view

Certified Management Accountant (CMA) is a certification in financial accounting and strategic management. Furthermore, unlike other accounting certifications, CMA is a globally recognized credential with a special focus on corporate finance and management accounting.

The CMA Certification Program Will learn you how to:

- ❖ Identify opportunities for investment management
- ❖ Act as a mentor and supervise lower level accountants
- ❖ Prepare financial statement – income statements, balance sheets, and cash flow statements
- ❖ Make presentations to senior management
- ❖ Create strategies to improve and manage various internal and external risks
- ❖ Arrange funding and financing options
- ❖ Monitor and administer compliance

Content specification of CMA is divided into two parts:

Part 1:

- ❖ External Financial Reporting Decisions
- ❖ Planning, Budgeting, and Forecasting
- ❖ Performance Management
- ❖ Cost Management
- ❖ Internal Controls
- ❖ Technology and Analytics

Part 2:

- ❖ Financial Statement Analysis
- ❖ Corporate Finance
- ❖ Decision Analysis
- ❖ Risk Management
- ❖ Investment Decisions
- ❖ Professional Ethics
